Comments:

Department of Community Development

10. COST OF CHELAN FIRES - Provides \$13.5 million from the state general fund for the unanticipated costs of the 1994 Chelan fires. These funds cover the costs of activating the State's Emergency Coordination Center and reflect actual reimbursement to 234 fire districts for fire-fighting services. Funding is also provided for other emergency coordination center activations and for agency staff overtime costs.
12. CHELAN FIRES - LOCAL COSTS - Provides \$2.2 million from the state general fund to reimburse local governments for extraordinary costs incurred in fighting the Chelan fires. Reimbursement is provided for emergency overtime services associated with public health and human safety, including evacuation of nursing homes, hospitals, and other essential public services.

Military Department

25. FIRESTORM CHARGES - Provides \$6.7 million from the state general fund to reimburse the Military Department for expenses incurred fighting forest fires in the summer of 1994. The Governor's declaration of emergency activated National Guard soldiers to provide support to firefighters and, for the first time, to actually fight fires. Under RCW 38.24.010, the state is obligated to pay for these services.

DSHS - Juvenile Rehabilitation

29. NOVEMBER FORECAST UPDATE - Reduced spending of \$3.2 million from the state general fund results from the November 1994 update to juvenile rehabilitation population projections. Institutional and community residential populations are projected to average 1,223 per day in fiscal year 1995, compared to 1,234 per day funded in the 1994 Supplemental Budget.
31. FEDERAL FUNDS ADJUSTMENT - Provides \$3.7 million from the state general fund to replace absent federal funds that were assumed in the initial budget, including SSI, IV-E, and Title XIX. Because of federal restrictions on IV-E eligibility, and Region X denial of Supplemental Security Income (SSI) claims, no earnings are expected for these programs. The shortfall is partially offset by IV-A and Title XIX earnings.

Washington State Operating Budget

1995 Supplemental Budget

Chapter 1, Laws of 1995 -- (ESSB 5103)

32. PARENT PAY ADJUSTMENT - Provides \$4.1 million from the state general fund to replace parent pay revenues that are lower than projected in the original budget. The revenues are lower due to: a one-year implementation delay by the county juvenile courts; a lower collection rate as collections are by administrative rather than court order; 25 percent of families not being subject to collection because the incarcerated individual is over age 18; and a projected lag in actual collections.

DSHS - Long-Term Care Services

51. NURSING HOMES - Provides \$3.0 million from the state general fund and \$1.0 million from other funds for higher than expected nursing home costs. Expenditures have exceeded budgeted levels, due to: 1) an unbudgeted increase in the business and occupation tax; 2) lower than anticipated client contributions toward their cost of care; 3) higher than projected nursing home reimbursement rates; and 4) an error in forecasting fiscal year 1995 nursing home current funding. These overexpenditures have been partially offset by underexpenditures in the chore services and Community Options Program Entry System (COPES) programs.

DSHS - Income Assistance Grants

52. INCOME ASSISTANCE CASELOAD - Reduced spending of \$18.6 million from the state general fund and \$17.0 million from federal funds results from forecasts of reduced income assistance caseloads, primarily in the Aid to Families with Dependent Children - Regular (AFDC-R), a one-parent household program.
53. CHILD SUPPORT COLLECTIONS - Provides \$22.3 million from the state general fund and \$21.0 million from federal funds to replace funds from child support collections that are below the levels assumed in the 1994 Supplemental Budget. This restores funding to AFDC grants.

DSHS - Medical Assistance Payments

55. NOVEMBER 1994 FORECAST - Reduced spending of \$68.1 million from the state general fund and \$103.0 million from federal and local funds results from a March 1995 update of the November 1994 Medical Assistance forecast. Reductions are due to: a decline in per capita hospital costs; a reduction in the AFDC caseload; and lower than expected enrollment among newly eligible children in households up to 200 percent of the federal poverty level.

DSHS - Child Support Services

65. INCENTIVE PAY SHORTFALL - Provides \$4.7 million from the state general fund to replace projected incentive pay that did not materialize as assumed in the 1994 Supplemental Budget.

Health Care Authority

67. BASIC HEALTH PLAN UNDERSPENDING - Basic Health Plan enrollment is not increasing as expected. Therefore, the \$20.6 million from the state general fund to be used if Health Services Account revenues were insufficient is not needed. The \$24.7 million reduction in the Health Services Account appropriation is also due to under-enrollment and assures that appropriations do not exceed current revenue estimates. Sufficient funding remains in the Basic Health Plan to cover anticipated 1993-95 biennium costs.

Department of Corrections

85. DELAY HIRING OF SUPERVISION STAFF - Reduced spending of \$3.6 million from the state general fund results from a delay in hiring supervisory staff.
86. DELAY TWO WORK RELEASE FACILITIES - Reduced spending of \$1.1 million from the state general fund results from delaying into the 1995-97 biennium the start-up of two work training release facilities (40 beds and 25 beds).
88. DELAY PRISON EXPANSION - Reduced spending of \$3.9 million from the state general fund results from delays in the use of new housing units at Airway Heights and McNeil Island.

Washington State Operating Budget

1995 Supplemental Budget

Chapter 1, Laws of 1995 -- (ESSB 5103)

89. MCNEIL ISLAND LITIGATION SETTLEMENT - Provides \$6.3 million from the state general fund for the capital construction litigation settlement at the McNeil Island Corrections Center.

Department of Natural Resources

99. FIRE SUPPRESSION - Provides \$24.2 million from the state general fund to reimburse for fire suppression costs.

Public Schools

- 103, 108, 109, 112, 115, 117, 118, 119, 120.

ENROLLMENT - Actual 1993-94 enrollments for general apportionment purposes are 2,810 full-time equivalent (FTE) students lower than originally budgeted. The estimated 1994-95 school year enrollments are reduced by 9,607 FTE students. The reduced general apportionment enrollment levels result in reduced spending in the following K-12 programs: General Apportionment; Pupil Transportation; Education of Highly Capable Students; Block Grants; and Compensation Adjustments. Enrollment-related expenditures are adjusted upward or downward based on actual enrollments for the following programs: Special Education; Institutional Education; Transitional Bilingual Instruction; and Learning Assistance Program.

- 104, 110, 113.

COMPENSATION - STAFF MIX ADJUSTMENT - A total of \$15.8 million is provided from the state general fund for an adjustment in the staff mix factors (formula weightings for actual experience and training of certificated staff). In the General Apportionment program, the factors are increased by 0.2 percent in the 1993-94 school year and 0.7 percent in the 1994-95 school year. In the Special Education program, the factors are 0.1 percent higher for the 1993-94 school year and 0.7 percent higher for the 1994-95 school year. In the Institutional Education program, estimated average salaries are revised to reflect actual salaries reported by school districts.

- 105, 114.

STAFF RATIOS - In the General Apportionment Program, \$5.0 million in reduced spending from the state general fund results from school districts qualifying for slightly fewer K-3 staff enrichment units than originally predicted. The state funding formula provides up to 54.3 certificated instructional staff per 1000 FTE students in grades K-3 for those districts that actually staff at a ratio of 54.3 or greater. Districts staffing at a lower ratio receive funding for the actual ratio or 49 per 1000, whichever is greater. The state average K-3 funding ratio is revised from 53.94 to 53.74 in the 1993-94 school year and from 54 to 53.80 in the 1994-95 school year. In the Institutional Education program, reduced spending of \$323,000 from the state general fund results from a technical adjustment to staffing ratios in Group Homes.

107. DEDUCTIBLE REVENUES - FEDERAL FOREST ADJ - In the General Apportionment Program, \$5.0 million is provided from the state general fund to offset a net amount that is lower than projected for local revenues and higher than projected for federal forest revenues.
111. SPECIAL EDUCATION OTHER ADJUSTMENTS - Provides \$6.9 million from the state general fund to offset lower than expected federal Medicaid revenues for services to special education students.

Four-Year Institutions

- 122, 125, 126, 128, 129, 131.

STATEWIDE LIBRARY NETWORK - A total of \$3.2 million is provided from the state general fund to improve the integration of library systems on individual campuses and to begin the development of linkages among the libraries at four-year institutions.

Washington State Operating Budget
1995 Supplemental Budget
Chapter 1, Laws of 1995 -- (ESSB 5103)

Community & Technical Colleges

134. EDUCATIONAL TECHNOLOGY - Provides \$17.8 million from the state general fund to upgrade teaching technology and associated communications infrastructure. Funding will be used for: 1) the installation of interactive classrooms and teleconferencing capability (\$8.5 million); 2) the acquisition of computers for students and faculty (\$3.1 million); and 3) network cable and network systems on campuses (\$6.2 million). The State Board will allocate funds to colleges based on documented needs and provide the Legislature with a report on expenditures and program and productivity improvements.
